Contents Structure of this Code

This Code has two sections that follow this Introduction.

- The first section, “**Standards of Conduct,**” contains the actual guidelines that Covered Persons are expected to adhere to in the conduct of the Company’s business.
- The second section, “**Compliance Procedures,**” contains specific information about the procedures for implementing, disseminating and supervising this Code.

A Note About Other Obligations

Covered Persons generally have other legal and contractual obligations to the Company. This Code is not intended to reduce or limit the other obligations that any Covered Person may have to the Company. Instead, the standards in this Code should be viewed as *minimum standards* that Median expects Covered Persons to adhere to in the conduct of the Company's business.

STANDARDS OF CONDUCT

Compliance with Laws, Rules and Regulations

The Company seeks to conduct its business in compliance with the applicable laws, rules and regulations in the jurisdictions where it operates and does business. No Covered Person shall engage in any unlawful activity in conducting the Company's business or in performing his or her daily Company's duties, nor shall any Covered Person instruct others to do so, for any reason.

All Covered Persons must act in the strict respect of applicable local, national and international laws as well regulatory and good practice requirements. It is, therefore, a duty of each Covered Person to operate within legal guidelines and cooperate with local, national and international authorities. Covered Persons are expected to comply with the applicable laws in all countries to which they travel, in which they operate and where the Company otherwise operates and does business, including laws prohibiting bribery, corruption or the conduct of business with specified individuals, companies or countries.

Honest and Ethical Conduct

It is the Company's policy to promote high standards of integrity by conducting its affairs in an honest and ethical manner. The integrity and reputation of the Company depends on the honesty, fairness and integrity brought to the job by each person associated with us. Unyielding personal integrity is the foundation of corporate integrity. Promoting honest and ethical conduct is the basis to ensure the Company complies with applicable rules and regulations of all French, and other governmental entities and other private and public regulatory agencies to which the Company is subject.

Conflicts of Interest

Covered Persons have an obligation to act in the best interest of the Company and Median expects all Covered Persons to be free from influences that conflict with the best interests of the Company or might deprive the Company of their undivided loyalty in business dealings.

A "**conflict of interest**" occurs when a Covered Person's personal interest interferes in any way, or even appears to interfere, with the Company's interests. Conflicts of interest may arise in many situations. For example, conflicts of interest can arise when a Covered Person takes an action or has an outside interest, responsibility or obligation that may make it difficult for him or her to perform his or her work responsibilities objectively and/or effectively. Conflicts of interest may also occur when a Covered Person or his or her immediate family member receives improper personal benefits as a result of the Covered Person's position with the Company. Each individual's situation is different and evaluating any particular

situation will require consideration of many factors.

Situations involving a conflict of interest may not always be obvious or easy to resolve. Any material transaction or relationship that reasonably could be expected to give rise to a conflict of interest shall be reported promptly to the Legal Compliance Officer. The Legal Compliance Officer may notify the Board or a committee thereof as he or she deems appropriate.

If you have any questions about a potential conflict or if you become aware of an actual or potential conflict, and you are not an executive officer or director of the Company, you should discuss the matter with your supervisor. If the supervisor is involved in the potential or actual conflict, you should discuss the matter directly with the Legal Compliance Officer.

Protection and Proper Use of the Company's Assets and Valuables

Loss, theft and misuse of the Company's valuables and assets has a direct impact on the Company's business and its profitability. Covered Persons are expected to take particular care in protecting Company valuables and assets that are entrusted to their care. Protecting Company's valuables and assets against loss, theft or other misuse is the responsibility of every Covered Person. Covered Persons are also expected to take steps to ensure that the Company's valuables and assets are only used for legitimate business purposes. In any event, the Covered Persons must refrain from using the Company's resources, valuables, assets, goods and materials for their own personal advantage or, in any event, for any unlawful purposes.

Median also prohibits the reproduction of programs and the content of databases, as well as the acquisition and dissemination – in any form- of protected intellectual property, including through the disclosure of the relevant content before it is made public.

Confidentiality

Confidential information generated and gathered in the Company's business is a valuable Company asset and plays a vital role in the Company's business, prospects and ability to compete. Protecting this information plays an important role in the Company's continued growth and success.

"Confidential information" includes all non-public information that might be useful to competitors or that could be harmful to the Company, its customers, suppliers or partners, if disclosed. Intellectual property, such as trade secrets, patents, trademarks and copyrights, as well as business plans, research plans and strategies, pre-clinical and clinical data, new product plans, objectives and strategies, records, databases, salary and benefits data, employee information, customer, employee and supplier lists and any unpublished financial or pricing information must also be vigorously protected.

Covered Persons shall not disclose or distribute the Company's confidential information, except when disclosure is authorized by the Company or required by applicable law, rule or regulation. Covered Persons shall use confidential information solely for legitimate business purposes. Covered Persons must return all of the Company's confidential and/or proprietary information in their possession to the Company when they cease to be employed by, or to otherwise serve, the Company.

Unauthorized use or distribution of proprietary information violates Company policy and could be illegal. Such use or distribution could result in negative consequences for both the Company and the individuals involved, including potential legal and disciplinary actions.

Fair competition

The free market requires a level playing field with other companies which however must constantly follow the principles of fairness, fair competition and transparency towards market players.

Competing vigorously, yet lawfully, with competitors and establishing advantageous, but fair, business relationships with customers and suppliers is a part of the foundation for long-term success. However, unlawful and unethical conduct, which may lead to short-term gains, may damage the Company's reputation and long-term business prospects, and is strictly prohibited.

Accordingly, it is the Company's policy that Covered Persons must endeavor to deal ethically, fairly and lawfully with the Company's customers, suppliers, competitors and employees in all business dealings on the Company's behalf. In compliance with the national and EU legislation on antitrust matters, Median does not engage in conduct nor enters into agreements which may adversely affect the competition regime among various operators in the reference markets or such as to negatively impact users or consumers in general, thereby basing its conduct on fair trading, preventing and condemning malpractices of any kind.

Insider Trading

Using non-public, Company information to trade in securities, or providing a family member, friend or any other person with a "tip", is illegal. All such non-public information should be considered inside information and should never be used for personal gain. Each Covered Person is required to familiarize

itself and comply with the Company's "Insider Trading Policy," copies of which are distributed to all Covered Persons and available on the Company's website. Each Covered Person shall consult the Company's Insider Trading Policy for more specific information on the definition of "inside" information and on buying and selling the Company's securities or securities of companies with which Median does business.

Integrity of Records

The Company is committed to providing its shareholders, potential shareholders and stakeholders with full and accurate information about its financial condition and results of operations, as required by the competent securities laws and governmental authorities such as the French Autorité des Marchés Financiers ("AMF"). It is the Company's policy that the reports and documents it files with or submits to the competent authorities, and its earnings releases and similar public communications, shall include full, fair, accurate, timely and understandable disclosure. Those records serve also as a basis for managing Median's business and are important in meeting the obligations to customers, suppliers, creditors, employees and others with whom Median does business. As a result, it is important that Median's books, records and accounts accurately and fairly reflect, in reasonable detail, the assets, liabilities, revenues, costs and expenses, in accordance with the relevant accounting standards as well as all transactions and changes in assets and liabilities.

We require that each Covered Person shall comply with Median's system of internal controls and that all transactions be supported by appropriate documentation for legitimate purposes. Covered Person who are responsible for these filings and disclosures, including the Company's principal executive, financial and accounting officers, must use reasonable judgment and perform their responsibilities honestly, ethically and objectively in order to ensure that this disclosure policy is fulfilled. The Company's senior executive officers are primarily responsible for monitoring the Company's public disclosure.

The integrity, reliability and accuracy in all material respects of the Company's books, records and financial statements is fundamental to the Company's continued and future business success. No Covered Person may cause Median to enter into a transaction with the intent to document or record it in a deceptive misleading, fraudulent or unlawful manner.
